### Executive Summary

---

I am a Junior Software Developer currently enrolled in a Full Stack Development Diploma, and actively pursuing an entry position with the tech industry. I bring an excellent background and professional exposure in implementation and software training. I am comfortable in Frontend and Backend Development, skilled in HTML, CSS, JavaScript, Python and soon NodeJS, and Angular. I am really keen to contribute to a tech environment and team.

4. **Collaborative Projects - Hackathon Seasoned Greetings:** Github Project and version control

### Work Experience

---

|   |   |                           |                            |
|---|---|---------------------------|----------------------------|
| Apr 2023 - Present  | Study break for Dutch (B1), Full Stack Developer and working freelance projects |                           |                            |
| Aug 2022 - Mar 2023   | Simpro Ltd  | Implementation Consultant | Amsterdam, The Netherlands |
| <ul style="list-style-type: none"><li>• Implementation included doing the implementation from cradle to grave - with the client - both on-site and remotely for the trade industry.</li><li>• Business Discovery, Configuration of system, Workflow Management (Quotes, leads, jobs management)</li></ul> |   |                           |                            |

(including contractors, suppliers, and payments), mobile configuration, and reporting.

**Aug 2021 - Jul 2022**

Relocation from South Africa to Netherlands

**Jan 2009 - April 2021    Linden School (Pty) Ltd    Founder and Educator    Johannesburg, South Africa**

- **Scrum Master** for optimal running of teams including teams for safety, curriculum, policy updates, student study groups, and remedial student programmes.
- **All client interface, administration, accounting and organization for about 60 students, up to 10 staff, a school Board, multi-disciplinary education remedial team.** The school was registered with the Department of Education as a private school, Umaluzi, SA Council of Educators and SA Revenue Services. The books were audited annually by MWRK & Associates (Pty) Ltd.

**Jan 2002 - Dec 2008    Lodestone (Pty) Ltd    Financial Manager    Johannesburg, South Africa**

- **Implementation milestones included registering the company for all legislative and accounting compliances** to service mines like Lonmin, Anglo-Platinum and De Beers. Maintaining these registrations by submitting regular audited financials prepared by me, for tender submissions, VAT, Company Tax, Inter-company, etc.
- **Project Management for charity arm that involved starting a school on a shoe-string budget and the renovating of 12+ buildings.** Assisted with other projects creating a safehouse for the homeless, a church, and a shop. Served as non-denominational Sunday School Teacher for mixed aged groups from 4 to 16 years.

### **Additional Information/Interests**
